History/Social Sciences 3 credits					
Foreign Language 2 credits					
STEM/TECH 2 credits					
Art or Music 1 credit					
Physical Education 2 credits					
Electives 3 credits					

Even if your child is ready for advanced coursework prior to 8th grade, I would STRONGLY discourage it. There is NO RUSH to growing up. There are so many AMAZING classes that students can be engaged in! Take advantage of this time to ENRICH their life with INTERESTING options! Additionally, beginning college (even community college) before age 17, is NOT developmentally appropriate even if they are academically ready! Do NOT rush their childhood! They have their entire life to be adults!

Finally, most 4-year colleges will not look at high school classes taken before 8th grade! I put 8th grade on this chart; however, the credit count is truly for grades 9 – 12. *High School Students need 24 credits to graduate.*

You want your student to take the MOST challenging schedule that THEY can be successful with!
